PRODUCT SUBSTITUTION

For the APV1600/1600V5/2600/2600V5/3600/3600V5/3650 replacement, the new series of APV1800/2800/5800 are recommended. For the APV6600 replacement, APV7800 is recommended. For the APV11600 replacement, APV9800 is recommended. Both Array OS 8.6.x GA and Array OS APV 10.2.x GA software are available on all APV x800 models. Following are recommended EOS models substitution information.

EOS Product	Recommended Replacement	Replacement Product Description
APV1600/ 1600V5	APV1800	Better system performance and better SSL/ECC performance; dual power supplies for higher availability
APV2600/ 2600V5	APV2800	Better system performance and better SSL/ECC performance; dual power supplies for higher availability

APV3600V5/APV3650	APV5800	Better system performance and better SSL/ECC performance
APV6600	APV7800	Better system performance and better SSL/ECC performance
APV10600/11600	APV9800	Better system performance and better SSL/ECC performance

END-OF-LIFE POLICY HIGHLIGHTS

- Hardware: Array Networks End-Of-Life policy for hardware is to support for 5 years after its End-of-Sale (EOS) date. If the end-of-sale date is extended, the end-of-support date will not be extended, it will remain the same.
- Software: Array Networks supports software minor releases for up to (maximum) 36 months (3 years), or 4 consecutive minor releases, whichever occurs first.
- During the period covered by End of Life (EOL) policy, Array Networks may require customers to upgrade to a newer software release in order to fix certain bugs.
- If units sent in for hardware warranty repair cannot be repaired with modifications made to the components, Array Networks may choose to provide replacement units in place of the faulty unit. Replacement units provided during the EOS period may not be identical to systems purchased prior to product discontinuation. It is possible that replacement units may cause customer network changes (such as reconfiguration, software updates, and hardware upgrades) and may affect service pricing when the support contract is renewed.
- Array Networks reserves the right to reduce or amend support offerings available for renewal under this policy at any time and at its sole discretion, with or without notice.
- Array Networks reserves the right to charge for certain software upgrades.

SUPPORT

Array Networks will continue to provide support for the APV1600/1600V5/2600/2600V5/3600/3600V5/3650/6600/10600/11600 through the regular support service program. Customers with support service contracts are entitled to 24- hour phone support through the TAC and advance replacement of hardware. Array Networks is committed to providing hardware support for this product for a period of five years after the end-of-sale date.
